Badik Irfandi, Senior Frontend Engineer

A passionate and experienced software engineer focus on frontend with 6+ years of experience. I build polished digital products for web and mobile—grounded in JavaScript, TypeScript, and stacks like Next.js, Vue, Nuxt.js and React Native.

Experience

Senior Software engineer, PT. Dwi Sinergi Sakti 🇮🇩

Des 2021 - Present (4 yr 7 mos)

- Frontend Development (ReactJS & MongoDB Realm)
- Implemented agile processes and CI/CD pipelines.
- Create & maintenance web application
- Build reusable code and libraries for future use

Software engineer, Crosva Pty Ltd 🇺🇸

Jun 2025 - April 2026, (10 mos) part time

- One of the most impressive projects I have worked on is the YUFO Trade application. The project was particularly interesting because it involved implementing complex real-time delivery features that connected drivers and tradies efficiently.

Frontend Developer, PT. Mazabuta Alt Corporindo 🇮🇩

Feb 2019 - Nov 2021 (2 yr 9 mos)

- Maintain and improve web application with Vue 2
- Optimize applications for maximum speed
- Collaborate with back-end developers and web designers to improve usability
- Test web application with unit test

Fullstack Developer, PT. BPR Mitra Cemawis 🇮🇩

Feb 2016 - Nov 2018 (2 yr 9 mos)

- Know HTML, CSS, JavaScript, PHP
- Create Database And Flow Database
- Troubleshoot website problems
